ONUS WOOD

Collection 2026

AUSTRALIAN TIMBER LIGHTING

Light, grown slowly.

Pendants, sconces and lamps made from Australian hardwoods. Choose the timber, and we make your piece to order.

ABOUT ONUS WOOD

Designed in Australia, made with care.

Onus Wood makes lighting from four Australian hardwoods. Each piece is designed to be as good switched off as it is switched on.

We build each light from a handful of well-chosen pieces, usually four to six, rather than machining it from one large block, and we leave the joins and the timber's natural marks on show. It's a more responsible use of a precious resource.

Pieces are made to order by our specialist manufacturing partner, on precision CNC and turning equipment. Orders, delivery and support are handled here in Australia.

Every design pairs timber with a small family of materials: bead-blasted aluminium, frosted opal glass, slip-cast ceramic and spun metal in soft, nature-inspired colours.

Four Australian hardwoods

Every piece can be made in any of our four timbers. Real timber varies board to board, which is the point.

Messmate

Pale straw to light brown. Calm and honest. The gum veins are the tree's own handwriting, and we keep them.

Tasmanian blackwood

Golden brown with darker bands. Deep, lustrous and quietly luxurious. The figure shifts as you move around it.

Marri

Pink-brown to warm red-brown. Full of character. Every board carries its own map of gum veins, so no two pieces match.

Spotted gum

Light brown to deep chocolate. Strong and lively. The ripple figure shimmers as you walk past.

3 PIECES

Pendants

Pendants are where timber and light meet most directly. Each shade is turned or built from solid Australian hardwood, so the grain wraps around the light and glows at the thinnest edges. Hang one low over a dining table, or run three along a kitchen bench.

Prices in AUD, including GST. Images are concept renders.

Cradle — From $1,480

A shallow timber dome built from six wide segments, with the seams left on show and a warm pool of light beneath.

400 mm / 550 mm · Made to order, 6 to 8 weeks

Daintree — From $2,280

A tall timber cylinder of five curved staves, with light escaping through narrow vertical slots.

450 mm / 600 mm · Made to order, 8 to 10 weeks

Flinders — From $1,240

A small timber box pendant, its four sides held together with bead-blasted aluminium dovetail keys, open at the base.

250 mm / 350 mm · Made to order, 4 to 6 weeks

3 PIECES

Wall sconces

Wall sconces put the light where you live: beside a bed, along a hallway, either side of a door. Ours pair turned and curved timber with ceramic and aluminium, so you see the glow and the grain rather than the globe.

onuswood.com · hello@onuswood.com

Prices in AUD, including GST. Images are concept renders.

Wollemi — From $640

A linen drum shade on a slim timber arm, pivoting on a satin aluminium ball joint from a turned timber backplate.

300 mm · Made to order, 4 to 6 weeks

Otway — From $780

A curved timber shell floating off a satin aluminium wall disc, hiding the globe and washing light up and down the wall.

320 mm · Made to order, 4 to 6 weeks

Freycinet — From $460

A small domed timber disc with a slip-cast ceramic hood. Quiet enough for a bedroom.

180 mm · Ships in 2 weeks

2 PIECES

Floor lamps

Floor lamps are the easiest way to warm up a room without an electrician. Turned timber stems, weighted bases and soft opal glass or spun metal shades keep them steady, quiet and gentle enough for reading late.

onuswood.com · hello@onuswood.com

Prices in AUD, including GST. Images are concept renders.

Barrington

From $1,950

A slender timber stem, a frosted opal globe and a soft sage steel base.

1500 mm · Made to order, 6 to 8 weeks

Daylesford

From $1,420

A turned timber dome shade on a slim sage powder-coated stem and base.

1300 mm · Ships in 2 weeks

3 PIECES

Task lamps

Task lamps are for close work: a desk, a reading chair, a workbench. They are compact and precise, with integrated LEDs chosen for accurate colour, and timber bodies you will want to keep within reach.

onuswood.com · hello@onuswood.com

Prices in AUD, including GST. Images are concept renders.

Karijini — From $2,380

A marri task lamp with a swivelling aluminium joint and a shallow turned timber shade.

1600 mm · Made to order, 6 to 8 weeks

Bright — From $420

A cordless lamp: a frosted opal glass cylinder on a turned timber base, for a desk, a bedside or the dinner table.

300 mm · Ships in 2 weeks

Lorne — From $680

A frosted glass mushroom shade on a raw terracotta collar and a turned timber base.

320 mm · Ships in 2 weeks

3 PIECES

Candelabras

Candelabras are our multi-light fittings: several lights carried on a single timber frame or canopy. They are made for kitchen islands, long dining tables and high ceilings, where one pendant isn't enough and a row of separate ones feels busy.

onuswood.com · hello@onuswood.com

Prices in AUD, including GST. Images are concept renders.

Myall — From $2,450

A long tapering timber bar, lens-shaped in section, carrying a row of frosted opal globes over a dining table or kitchen island.

1500 mm, 4 shades / 2100 mm, 6 shades · Made to order, 6 to 8 weeks

Coorong — From $1,980

Three spun shades in terracotta, sage and sand, hung from one timber canopy.

3 lights / 4 lights · Made to order, 6 to 8 weeks

Kanangra — From $3,400

Two slim timber rails carrying a row of seven frosted glass rods, for long tables and open-plan rooms.

1100 mm, 7 rods / 1600 mm, 10 rods · Made to order, 8 to 10 weeks

Cradle $1,480

Messmate, 400 mm. Ships in 2 to 5 working days.

Barrington $2,180

Tasmanian blackwood, 1500 mm. Ships in 2 to 5 working days.

Freycinet $520

Tasmanian blackwood, 180 mm. Ships in 2 to 5 working days.
